Dear Partners and Clients,

The Hungarian economy continued its expansion in 2017, showing a clearly positive effect on the functioning and further growth of the insurance sector.

As the leading insurer in the flourishing Hungarian insurance market, Allianz Hungária Zrt. closed another successful year in 2017. Both our premium income and our operating profit exceeded previous plans, representing an outstanding achievement at the end of the year.

As a result, our gross premiums, as recorded for 2017, reached HUF 144.8 billion, more than HUF 14 billion more than the amount of the previous year, while our profit on the usual business results grew from HUF 14.1 billion to HUF 19.7 billion.

In 2017, we achieved a steady growth in all insurance segments, with a notable increase in our retail motor insurance policies. Besides the motor insurance market picking up, this growth was also driven in non-life insurance by the good performance of industrial property and liability insurance and agricultural insurance, particularly subsidised crop insurance, as well as a booming home insurance market, and in life assurance by the continued expansion of corporate insurance and pension arrangements

As a market-leading insurer, our aim is to be at the forefront of improvements implemented and applied to make our processes faster and simpler than ever before.

We continued our comprehensive digitalization efforts initiated years ago. In recent years, there has been a significant increase in the number of clients who make use of online opportunities and prefer using digital channels. We introduced innovations, such as our claim assessment application, which enables clients to record and communicate the claims they have to our adjusters and we also launched a service that allows customers to arrange travel insurance products via the chat feature of the most popular social networking site.

The success of our efforts is demonstrated by the fact that 2017 is the third year in a row in which we earned the title of Best Hungarian Insurance Company. This was also the 13th and 10th time, respectively, that we won the Superbrands and Business Superbrands awards. This makes Allianz the only Hungarian insurance company to have won these professional benchmarks every year since their existence.

These awards prove that we are heading in the right direction with our initiatives and activities. Feedback in the form of recognition is particularly important to us as it is essential to integrate client needs into our operations along the lines of vital areas such as a client-oriented approach, the digital age and market opportunities.

With a successful year behind us, we can only conclude that in 2018 we will continue to serve our clients in the same spirit as before and build further for the future.
