Useful Tips for Snowstorms

As your insurer, we want you to feel confident about the future and be prepared for whatever life throws at you. Here are some tips to help you get your vehicle ready for the unexpected!

Snowstorms can cause dangerous road conditions and cut your car off from the outside world.

Watch out for these during a snowstorm:

- 01** Always keep an ice scraper and snow chains in your car when heavy snow warnings are issued.
 - 02** If you encounter heavy snowfall while driving, try to pull over to a safe place as soon as possible.
 - 03** If you have to drive in a snowstorm, drive with extra caution and always check that your headlights and brakes are working properly before setting off.
 - 04** Use winter or all-season tyres and, if necessary, snow chains to drive safely on heavily snow-covered roads.
 - 05** Before setting off, remove ice from the windows and clear snow from the entire surface of the car.
 - 06** Avoid parking your car outdoors if heavy snow or extreme cold is expected. If possible, park in a garage or under a roof.
 - 07** Extreme cold can damage the battery of an electric vehicle or reduce its service life, so park in a garage whenever possible in extreme cold.
-

Which insurance covers damage caused by snow loads or snowstorms?

Allianz MyCar motor insurance's Plus, Extra and Max packages, which include natural disaster coverage, also cover damage caused by snowstorms, snow loads and avalanches.

You can find detailed information about insurance services in the general terms and conditions:
